

DIRECTOR OF CENTRAL INTELLIGENCE
Security Committee

SECOM-D-193

April 28, 1980

MEMORANDUM FOR: Chairman, DCI Security Committee

STATINTL FROM:
Executive Secretary

SUBJECT: Personnel Security Survey

1. Enclosed is a letter of transmittal from the Investigative Standards Working Group which forwards a draft copy of the Personnel Security Survey Report. As noted in the letter of transmittal, the Working Group is submitting a separate letter with specific recommendations for changes to DCID 1/14. These recommendations will be based on conclusions shown in the attached draft report beginning on page 72.

STATINTL 2. We plan to print the report in final form as soon as the printers find it possible and to distribute it together with the Working Group recommendations to SECOM Principals for their review prior to the June SECOM meeting. During that meeting, we hope to have present salient features of the survey and lead a "Q and A" discussion. At that time, you could then ask SECOM Members to approve the recommendations with appropriate tasking instructions or to submit written comments and alternative suggestions. After the SECOM meeting, we would distribute copies of the report to interested parties in the Federal Government and make copies available to others only upon request.

3. Please indicate your approval of these procedures by signing the acknowledgement line of letter of transmittal. We will then include that letter as the fly leaf page in the Working Group's report.
